

Finance & Corporate Services

FINANCIAL ANALYST (Entry level and Intern)

Finance and Treasury combine corporate level support with internal consulting services. Key activities include strategic planning, financial performance modeling/forecasting, analysis of results, competitor analysis, corporate finance, and mergers/acquisition initiatives. The area requires a wide array of analytical capabilities and offers an assortment of learning and career advancement opportunities. Candidates in this area will obtain exposure to Entergy's regulated and non-regulated businesses. As a Lead Financial Analyst, one will have the opportunity to participate in a variety of financial and business initiatives. These activities are focused on providing senior management and the Board of Directors with strategic advice and business information.

JOB PROFILE

- Participate in a variety of Corporate-wide planning related projects and processes
- Participate in developing and updating complex financial models and projecting earnings of Entergy's businesses
- Assist in developing/assessing market data on Entergy and its competitors
- Develop analytical models to forecast investment earnings and energy commodity prices
- Assist in the development of the Company's annual budget and monitor the performance of each operating unit
- Analyze and develop acquisition strategies to grow the business profitably
- Analyze and develop financial strategies and legal restructuring options
- Develop investor relations strategies through market intelligence for communication with investment community

PROFILE REQUIREMENTS

MBA candidate – finance concentration. Self-starter with exceptional analytical skills and academic achievement. Strong verbal and written communication skills. Proven ability to work effectively in a small team setting. Relevant work experience is a distinct advantage. Demonstrated work ethic. Full command of a PC and the Microsoft Office applications.
