

Nuclear fact sheet

Entergy is an integrated energy company engaged in electric power production, transmission and retail distribution operations.

- Entergy Nuclear has approximately 3,000 team members in multiple states
- Nuclear is clean, carbon-free energy
- Entergy Nuclear provides safe, secure, reliable energy 24/7, 365 days a year

Entergy Nuclear owns, operates and supports a fleet of five reactors in four locations, generating enough clean, carbon-free electricity to power millions of homes and businesses.

Entergy is more than just a fleet of nuclear power plants. We are a company dedicated to becoming the premier utility while improving the lives of our customers, as well as our communities and the environment.

With nuclear power, we can help solve the challenge of climate change and meet the growing demands of our nation's energy needs.
